Unmarried mothers have lower median earnings ($575) compared to married mothers ($768), and to women as a whole ($706).

Mothers are the sole or primary breadwinner for a record 40% of households today compared with 11% of families in 1960.

About 25 percent of households today are maintained by unmarried mothers.

For every $1 made by a father with children under 18, mothers earn 74.7 cents. The gap for all women is 82.1 cents compared to all men.
